

Municipal/ Government

Who We Help

RP Constructors is a full-service engineering, procurement, and construction (EPC) company when you include our wholly-owned subsidiary, Civil Engineers & Constructors. We provide high-quality construction with an impeccable safety record – all while completing your project on time and within budget.

We work in various market sectors and have experience with municipal/governmental, industrial, and private/commercial entities.

No matter what you do, we can help you do it better.

When a municipality or government entity puts out a public bid, they look for the lowest responsive, responsible bidder. Since these bids are public, governmental entities must ensure those tax dollars are used wisely. RP Constructors strives to ensure the best construction experience with that in mind and will deliver a complete proposal. Our clients require solid financial strength and an excellent safety record—both of which we have.

“Quality, to us, means that it looks nice, it is structurally sound, and above all, it works!”

RYAN CALLAGHAN, CEO

Here's a brief list of municipal and governmental projects we've worked on:

Military Road

\$6.5M+

Full reconstruction of all underground paving and utilities from Riverside Blvd to South Dakota.

Sioux Gateway Airport

\$3M+

Including runways, aprons, and taxiways.

Myrtle Street

\$7M+

A residential neighborhood where we installed new underground utilities including sanitary, water, and storm, as well as subgrade, paving, seeding, new sidewalks, and new driveways.

I-29 reconstruction

\$10M+

We've been involved since Day 1 on the project and have participated in multiple phases, scopes, and contracts.

More aviation/FAA airport work

\$1M+

Including Wayne, Nebraska and Le Mars, Iowa.

Other DOT work

Underground utilities along Highway 75 between Sioux City and Hinton, Army Corps of Engineers, and large and small municipalities such as Dakota Dunes, South Sioux City, Sioux City, Le Mars, and Merville, to name a few.
